Dear Mr. Davidson,

I really enjoyed your presentation on October 25, 1994 at Silver Spring, Maryland. I am employed as an Investigator with the Internal Revenue Service, Inspection, Washington, D.C. In my profession, I find myself extremely preoccupied with work twenty-four hours a day. I knew that I was losing my "time" and had made some changes in my life to correct that problem. Your presentation gave me more incentive to continue on that direction. In addition, you managed to give me more options/avenues to help me grow as a person, spiritually and emotionally. Thanks again, sir.

I request that you would mail me a cassette recording on "Breathing Space" to help me accomplish my goals.

Thank you,

Judy Cavazos Reyes

PS. I know you requested that we write a typewritten letter on our letterhead. However, it is against the IRS Rules of Conduct to use the IRS letterhead for personal use.
