Dear Jeff,

I attended the Nationsbank P-Card seminar at which you were the key note speaker. I enjoyed your presentation and found the handout to be very valuable. My new secretary and I are using the guidelines as presented to clean out several old files of materials.

Thanks for the help. I will also be using the completions at home to spend more time with my husband. Sometimes I get too busy and forget what is really important. We are now enjoying the quiet of an empty nest and finding out why we fell in love in the first place. Your suggestions are quite useful!

Thanks again!
