Dear Jeff,

I would like to thank you for the time you brought us in TX last week. I really enjoyed your session since you reminded me that we should avoid as many times as possible to be taken by the wave of the world. We must enjoy our life based on a more natural basis. Not too many TV sets at home, not too many magazines to read, not too many hectic places to work with...

Now, every time I open my mailbox at home I recall your session. And as a matter of fact I have already cancelled a couple of magazine subscriptions and unsubscribe from MANY free Internet updates.

Un saludo cordial,

A handwritten signature in blue ink, appearing to read "Juan Pico". The signature is fluid and cursive, with a large loop at the end.
