From what I have heard, Jeff, you did an outstanding job.

On behalf of our client, American Express, we would like to thank you for a job well done at their September 1996 program.

The knowledge and expertise you brought to the program inspired the participants and gave them the information they need to make better business decisions.

We have appreciated the opportunity to work with you and we look forward to working together again soon.

Best Regards,

James E. Melton

P.S. It was a real pleasure working with you. I know we will do it again and again. I'll mail you any feedback that American Express offers us on your presentation.
